

FSX Holistic Risk Assessment Tool

ABOUT NEXUS

Nexus FrontierTech is a technology company that develops AI and digital transformation solutions for businesses, with a specialisation in finance. Our proprietary platform powers modular AI components that automate data-driven processes, extract valuable insights from unstructured data, and improve decision-making through predictive analytics. We help organisations integrate AI into their operations, leverage data to drive business growth, and stay ahead in a rapidly changing digital landscape.

USE CASE / OUR GLOBAL CLIENTS

THE PROBLEM

- Relationship managers and credit analysts spend a large majority of their time:
- Manually finding, extracting and entering data from financial and bank statements into Excel spreadsheets and internal credit systems
 - Doing repetitive low-value mundane tasks prone to errors
 - Replicating manual data entry across front, mid and back offices
 - Not doing the higher-value task of actual risk analysis to determine borrowers' credit risk scores to aid in proper loan decision-making

THE SOLUTION

Nexus FSX is a holistic solution that automatically:

- Extracts data from financial documents, making it smarter
- Calculates financial ratios to derive the borrower's risk score vs industry peer average
- Monitors financial covenants compliance per Loan Agreement

WHY NEXUS—OUR UNIQUE VALUE PROPOSITION

- Data traceability and verification in real-time
- Spread customisation that meets the client's needs and integrates on-premise
- Utility-based pricing for extraction/basic spreading per borrower keeps costs low

NEXUS VALUE FRAMEWORK:

A suite of NEXUS solutions provides real value in the automation of financial decisions for our clients
